\*\*\* Notes of Significance \*\*\*

Fires highlighted in yellow have submitted a FINAL ICS-209 or will no longer meet criteria to be prioritized

[illegible]

## Evening Brief

Date: Thursday September 24<sup>th</sup>, 2020

### Weather Summary

Gusty winds will develop across much of the Great Basin again this afternoon due to a cold front in place across the middle of the Great Basin. Wind gusts will be in the 20 to 30 mph range both ahead of and behind the front.

Critical fire weather conditions are expected ahead of the front across central and eastern Utah where relative humidity will be the lowest.

The front will continue to push south through the area on Saturday. Southern Utah and the Arizona Strip may see isolated critical winds/relative humidity on Saturday afternoon. Further north, temperatures will drop 10 to 15 degrees between Friday and Saturday. Overnight recovery will improve significantly Saturday night into Sunday.

Central Idaho and western Wyoming will see rain showers on Saturday. Up to a half of an inch of precipitation is possible across the higher terrain, with around a tenth of an inch of rain expected for the lower elevations of southern Idaho.

Strong high pressure will build into the Great Basin early next week bringing an extended warming and drying trend.

---

### Preparedness Levels & Great Basin Fire Activity (from WFDSS)

Great Basin	PL 4	Light Initial Attack Activity
National	PL 5	New Fires and Acres: 9 fires for 554.4 acres. 2,794 acres Large Fire Growth

---

### Fuels/Fire Potential

#### \*\*\* Fuel and Fire Behavior Advisory Remains in Effect for Parts of Idaho, Eastern and Southern Nevada into Utah \*\*\*

Recent moisture and cool temperatures across northern and eastern areas has raised fuel moisture temporarily. ERC's, which just a few days ago were at record dry levels across Idaho, Wyoming and eastern Utah, have rapidly fallen back to near late September normals.

---

## Resources:

### Aviation within the Great Basin

- 1 VLAT, 3 LATs, 0 CL-415
- 21 SEATs, 5 FB, 14 AA, 1 ASM, 0 LP
- 12 Type 1 Helicopters / 12 Comm.
- 9 Type 2 Helicopters / 9 Comm.
- 21 Type 3 Helicopters / 21 Comm.

### Crews Committed within the Great Basin

- 9 IHCs / 0 Available
- 15 Type 2IA / 0 Available
